A: "Final" means "the last version of this software", as in the official releases of its latest version. So, the next release of WinRAR, 5.11 Final, will be released soon after the WinRAR 5.10 RC3 (one month in advance), it will include all the changes from the 5.10 RC2 and about the 5.9 ones. Q: preg_replace on multiple occurrences with multiple strings I want to replace a string in multiple occurrences and check each time to see if the replacement was correct: \$string = 'Hi, %NAME%.'; \$name = \$this->someFunction()->getName(); //I want to check this variable \$pattern = '%NAME%'; //string to replace with \$replace = 'XNAME'; //the actual string to replace the string with. So the end result should be: \$string = 'Hi, XNAME.'; A: You can use preg_replace_callback function: \$string = 'Hi, %NAME%.'; \$name = \$this->someFunction()->getName(); //I want to check this variable \$pattern = '%NAME%'; //string to replace with \$replace = 'XNAME'; //the actual string to replace with \$replace = 'XNAME'; //the actual string to replace the string with. \$result = preg_replace_callback function: \$string = 'Hi, %NAME%.'; \$name = \$this->someFunction()->getName(); //I want to check this variable \$pattern = '%NAME%'; //string to replace with \$replace = 'XNAME'; //the actual string to replace the string with. \$result = preg_replace_callback('~%([a-z]+)%~', function (\$matches) use (\$name) { return \$name[\$matches[1]]; }, \$string); Androgen signaling and luminal differentiation in the developing and adult mouse mammary glands of sexually mature females contain a population of epithelial cells, known as alveolar cells, that express the luminal cytokeratin 18 (CK18) and the androgen receptor (AR). To understand the role of AR signaling in luminal differentiation, we have examined expression of luminal differentiation markers and AR in developing and adult mammary glands of AR knockout (ARKO) mice and compared it to controls. In the developing mammary glands of ARKO and wild type (WT) mice, keratin 18 and AR are expressed in the same cells o
