Description: Grand Theft Auto V Grand Theft Auto V - Grand Theft Auto V - GTA0 CORE.. if you are trying to play Grand Theft Auto V on your iPhone, you're probably after the version found on the iTunes App Store. The Grand Theft Auto V for iPhone version in the App Store is actually a beta version of the game and if you download it, you'll likely find that it does not play well on your phone. We've seen many reports that you are able to download the beta version of Grand Theft Auto V from the iTunes App Store that is supposed to work on your iPhone. In order to play this version of Grand Theft Auto V for iPhone, you'll have to use an app called APKPatcher (below) that can be used to modify your iPhone in order to let Grand Theft Auto V work. Benefits for using APKPatcher to play GTA V with Grand Theft Auto V for iPhone. 1) You can modify your iPhone to play Grand Theft Auto V by using APKPatcher. 2) You can bypass Apple's Update check by using APKPatcher. 3) APKPatcher can be used to remove restrictions on iPhone and you can be sure that you cannot be detected. Instructions for APKPatcher Applying the GTA V beta for iPhone Patch 1. First download APKPatcher and save it to your iPhone's desktop. 2. Double click on APKPatcher and wait for the patch process to complete. 3. Once you see the progress bar indicate that the APKPatcher process is complete, you'll want to get back to your iPhone. 4. Launch the App Store and navigate to the Games tab. 5. Once on the Games tab, tap on the icon for Grand Theft Auto V for iPhone. 6. In the top left corner of the iPhone's screen, you'll see a down arrow. Tap on it. 7. Tap and hold on the option to download the Grand Theft Auto V "beta" and you should see the option to "Paste APK" appear. 8. Tap on this option and then tap "Paste" to send the APKPatcher to your iPhone. 9. On your iPhone's home screen, you'll see a new icon on your home screen called "App Store". 10.
