Here are the available shortcuts for Norton® AntiVirus® 2015: [Show Full Description] [Show Full Description] Colour Scheme Installer is a GUI application for system-wide installation of popular colour schemes for Microsoft® Windows®. It is a single file, which contains a compressed file with the desired colour scheme. It installs it silently in the same location as the specified dlls, in a directory structure of its own. Thus, there is no need to copy all dlls from one folder to another. The user can use the settings in the main application settings dialog to choose which colours should be installed. Keyboard Shortcuts: There are a few ways to launch the main application: 1. Start the "Colour Scheme Installer" from the Start menu by typing "Colour Scheme Installer" and pressing Enter. 2. Right-click the desktop and choose "Open Colours." 3. Open the settings dialog, choose "Start Colour Scheme Installer", and choose "Open...".
